5. Nature of Dividends. Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.

6. Dividend Compounding and Crediting. The compounding and crediting frequency of dividends and dividend periods applicable to each account are stated in the Rate Schedule. The Dividend Period is the period of time at the end of which an account earns dividend credit. The Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period. For Vacation Club accounts, the dividend period is annual. For example, the first dividend period of the year begins on May 1st and ends on April 30th. All other dividend periods follow this same pattern. For Christmas Club accounts, the dividend period is annual. For example, the first dividend period of the year begins on October 1st and ends on September 30th. All other dividend periods follow this same pattern. The disclosed Rewards Checking APY is based on compounding dividends. The actual dividends paid may be less than the disclosed APY.

7. Accrual of Dividends. For all earning accounts, dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account. If you close your account before accrued dividends are credited, you will not receive the accrued dividends. However, for Vacation Club and Christmas Club accounts, any accrued dividends will be paid if you close the account within seven (7) days of the date you open it.

8. Balance Information. To open any account you must deposit or already have on deposit at least the par value of one full share in a Share Savings account. The par value amount is stated in the Fee Schedule. Some accounts may have

additional minimum opening deposit requirements. The minimum balance requirements applicable to each account are stated in the Rate Schedule. For Share Savings, Money Market, Basic Checking and **Flex** Checking accounts, there is a Minimum Balance required to avoid a service fee for the dividend period. If the minimum average daily balance is not met during the dividend period, there will be a service fee as stated in the Fee Schedule. For Share Savings, Money Market and Rewards Checking accounts, there is a Minimum Balance required to earn the Annual Percentage Yield disclosed for the dividend period. If the minimum average daily balance is not met, you will not earn the Annual Percentage Yield stated in the Rate Schedule. For accounts using the Average Daily Balance method as stated on the Rate Schedule, dividends are calculated by applying a periodic rate to the Average Daily Balance in the account for the dividend period. The Average Daily Balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.

9. Account Limitations. For Money Market accounts, you may make no more than six (6) transfers and withdrawals from your account to another account of yours or to a third party in any month by means of a preauthorized, automatic, or Internet transfer, by telephonic order or instruction, or by check, draft, debit card or similar order. If you exceed these limitations, your account may be subject to a fee or be closed. For Vacation Club accounts, the entire balance will be transferred to the Share Savings account in which the Vacation Club account appears, on or after April 30th and the account will remain open. You may not make withdrawals from your Vacation Club accounts at any other time. If you wish to access the funds in your Vacation Club accounts, you may close it.
